Board and Train / One on One Training

Board and Train Programs: Dogs stay at the kennel for specified amount of time and we work with the dog while here, Fees include training as well as boarding for the dog during that time frame.

4 Day Training: Typically we work on basic obedience such as heel, sit, down, and stay. We can work on some minor problems such as, jumping and going through doors without dragging handler.

4 Day Fee: \$325.00

7 Day Training: We work on the basics as in the 4 day training but then add more of the obedience such as the “come” command and other problems such as house breaking and barking to name a few.

7 Day Fee: \$525.00

10 Day training: All of the same things as the 7 day and then add more training on getting the dog off-leash. We don't typically suggest that you walk your dog off-leash, but we want to know that the dog is going to respond should he get loose or if taken to a dog park or somewhere that he can be off-leash.

10 Day Fee: \$725.00

14 Day training: All of the above and then working more on off leash and any additional problems that owners are having with the dog. We can be much more specific on obedience training that we are doing with the dog.

14 Day Fee: \$950.00

Stop in at any time to take a tour of our facility
(We highly recommend this!!)

Board and Train / One on One Training

One on One Training is done with the dog the owner and the trainer. Appointments are scheduled at the trainer's and owner's convenience. Usually appointments are approximately 1 hour long but sometimes may run a little longer.

We can work on all specific problems the owner may have with the dog. We usually recommend that owner's have dogs in class for the socialization. One on one training is usually an add on to classes either before classes begin or once classes have been completed.

At Carlson Canine Camp: \$65.00 per appointment

At your house: Starts at \$90.00 per appointment and goes up with mileage etc.

* * We also offer obedience classes throughout the year.

* * All of our training is positive reinforcement. We DO NOT use or allow the use of choke chains, pinch collars, or shock collars in our facility.

** Show your contract from shelter or rescue and we will discount training fees.
